## WHAT SOME PARTICIPANTS HAVE SAID

"... the major learning for me there is the efficacy of EFT with deep issues in the hands of a skilled therapist - even deep, painful issues and patterning can be relieved of their charge in a short time. And I loved the way it integrates with my Psychosynthesis way of working!" HW

"The amount of interactive material and theory was beautifully balanced. I felt seen, heard and well held by Viv and she gave us enough space to experience the work in practice." DK

"Expansive, playful, spacious, exploratory, profound. Excellently organised, though flexible." SL

"EFT is having a profound effect on me and my client work. Something has shifted in my presence in the room ... the compassion I feel seems to be more held and firm somehow ... so glad I did the course!" AH

"This has been a challenging and transformative experience - but the high point for me - after my initial scepticism - is that it works! Months later - and I am using EFT in my work with astounding results!" JO
